

v-series

indoor cycle

Durable enough for a class setting or for indoor training during the off-season, the V-Series indoor cycle by Vision Fitness delivers uncompromised performance. The stainless steel seat post and handlebar stem combined with the zinc-coated frame create a robust cycling platform. An ergonomic cycling saddle and microadjustable handlebar and seat sliders allow users to find their perfect riding position. The high-inertial 40 lb. flywheel and friction brake system deliver a smooth, consistent ride.

feature	v-series indoor cycle
frame	steel frame w/ zinc oxide polyester powder coating
seat post & handlebar stem	stainless steel pop pin wedge design to lock in desired height

v-series

indoor cycling computer

The Indoor Cycling Group computer offers users more control over their training with immediate feedback. The large (3 x 2") display provides easy viewing of key workout statistics, including time, distance, calories, heart rate, and cadence. The computer is wireless and mounts directly to the handlebars for a seamless look.

technical features

dimensions: 2.24" l x 4.4" h (57 mm l x 112 mm h)
